

STAT

PLANS AND PROGRAMS STAFF WEEKLY REPORT FOR
PERIOD ENDING 13 APRIL 1983

1. Progress Report on Tasks Assigned by the DCI/DDCI:

No tasks assigned during this reporting period.

2. Items or Events of Major Interest that have Occurred
During the Preceding Week:

a. LIMS

(1) On 12 April the LIMS Source Selection Board unanimously recommended [] be selected as the LIMS development contractor. This recommendation will be presented to the Source Selection Authority for approval.

(2) [] Supply careerist with the System Development Group, has issued a preliminary draft of a LIMS data element dictionary. Now containing about 400 definitions and expected to reach 800, this listing will be used by the development contractor in building the new system. This dictionary is important to OL and OF in that it will become a common reference for all users of the system. This document, when completed, will provide a first ever compilation of common terms and their definitions.

(3) [] about to depart from the SDG for the CAMS project, will present his final overview (and changes) to the Catalog Module this AM. [] has been on the LIMS project for more than two years. []

b. Regulation Revisions

The following regulations were reviewed, commented upon, concurred in, or published during the past week:

[] Records Management - Concurred, provided the statement that Records Management Division, OIS, will establish automated procedures for the various registries throughout the Agency is changed to read that OIS will monitor (or coordinate or oversee), the automation procedures of each registry. Our registry believes that it should have more freedom to develop whatever automated procedures work, but without being told by OIS. OC has made the same condition on its concurrence.

[] Security Clearances and Approvals and HR
Special Clearances and Access Approvals - Concurred.

[] Supply Operations - In response to recommendations from Records Management Division, OIS, we submitted to OIS/RCD some modifications to our "in-the-mill" revision of this regulation. []

STAT

Systems Analysis Branch/P&PS/OL
WEEKLY STATUS REPORT
Week of 4 to 8 April 1983

I. Major Activities During the Past Week:

A. Support to OL:

FARS (Federal Automated Requisitioning System). A meeting was held on 5 April to discuss prioritizing of FARS problem reports and other issues relating to FARS. In attendance were [redacted] of Data Control STAT
Branch/SD/OL, and [redacted] of Systems
Analysis Branch/P&PS/OL. [redacted]

CONIF (Contract Information System). Modifications to files and dictionaries included in the retirement process have been completed. These modifications were necessary due to the addition of the new LINE/DETAIL data in the CONIF data base. Additions/changes were made to the CON/RET GIM II procedure (used to select the contracts to be retired to the offline data base), the RETDISK and RETLOAD JCL files, the LINE/DETAIL, CONTRACT and RET/CN GIM II dictionaries and the CONIFHD GIM II data file which contains GIMS statements necessary to carry out the retirement process (extract and bulk change statements, selection statements etc.) [redacted] STAT

II. General Items:

A. Support to OL:

TRAINING. [redacted] completed the EXEC2 Language STAT
Course at [redacted] on 4-6 April. [redacted]

III. Problems:

None to report.

STAT

IV. Upcoming Events:

None to report.
